

ACTION LESOTHO – DEVELOPMENT EDUCATION SHEETS

Introduction: Lesotho, the Mountain Kingdom, is a beautiful country in the south of Africa but most of the people are very poor and need help to survive and thrive. Action Lesotho is working with people in Lesotho to break the cycle of poverty.

Our projects are of four main types:

- 1) Agriculture
- 2) Skills & training
- 3) Health & nutrition
- 4) Craft & enterprise

Agriculture – helping farmers grow more food and rear animals so that they can feed themselves and the rest of the country.

Skills & Training – helping children access education, including arts & crafts, and providing courses for adults so they can get jobs.

Craft & Enterprise – helping companies to gain the skills to make good products and run good businesses so that the workers make enough to live on.

Health & Nutrition – making sure orphans & vulnerable adults have food and medical support, and teaching people how to grow their own vegetables and keep chickens.

How you can help – Sort out your books and DVDS then hold a sale or bring them to our bookshop in Tralee Shopping Centre, off Bridge Street, Tralee, Co Kerry.
